

Candidates for Mayor of Wichita

Updated to include only the candidates remaining after the primary election

Carl Brewer

1) What do you hope to accomplish as Mayor?

We must move Wichita forward, and I believe we need new leadership to do that. I will use my business experience to bring new jobs to Wichita, streamline government, protect taxpayer dollars, cut wasteful spending and make sure city government is run more efficiently. I will also continue to fight for funding street improvements, police and fire stations and neighborhood clean-ups and will prioritize our most important task – making sure our citizens are safe and secure.

2) Why should you be elected?

As Mayor, I will bring together the perfect blend of working in the private sector and serving on the City Council, applying business skills and experience to make tough decisions to keep costs down and prioritize spending while forging consensus with other elected officials to get good things done for Wichita. I believe in this community and what we can accomplish together and will work as a good partner to implement the goals of Visioneering Wichita, establishing a high quality of life for our citizens and an attractive climate for new businesses.

Carlos Mayans

1) What do you hope to accomplish as Mayor?

As Mayor of Wichita, I have led ambitious efforts to bring more than 6,000 jobs to Wichita in the past 3 years. We must continue those efforts; train our workforce; and expand the diversity of our industries.

2) Why should you be elected?

I kept my promises as what I was going to do in my first 4 years as Mayor of Wichita. As President-elect of the League of Kansas Municipalities; Advisory board member and Vice-Chairman of the United States Conference of Mayors, I have the leadership, experience, and relationships with State, National, and International leaders that can keep Wichita as one of the ten best cities in America.
